Online / Offline Option

With this option you will have 3 months to complete your theory course online. You will buy the course online for the price of £200 and then pay an extra £80 for the 1 day spent offline in our academy, this can either be done by bank transfer (just ask your educator for details) or cash once you have come to our academy.

This is a very popular choice in our academy as it means you can learn the theory at your own pace at home, making sure you understand everything, and then spend all hours at our academy on practical work. It makes sure that we can give our students the maximum amount of practical work without the need to go over theory again.

The theoretical part must be completed and submitted to your educator before coming to practical part. The student book must also be fully filled in and brought along with you. If the theory is not completed before the date of your practical lessons an extra charge of £150 must be paid to book a date again!
